Dear Ms. Dashow:

Please accept my sincere thanks for your generous gift to the Child Life and Creative Art Therapies Program at Cohen Children's Medical Center, a member of Northwell Health. This important service improves the quality-of-life for children while they are hospitalized. Certified Child Life specialists address the unique emotional needs of our young patients and diminish the fears and anxieties that often come with treatment. These specialists use therapeutic, age appropriate techniques to ensure a more positive environment.

Once again, Cohen Children's has been ranked by *U.S. News & World Report* as one of the nation's best children's hospitals and remains the largest provider of pediatric health care in New York State. Our success is dependent on the generosity of friends, like you, who help us to provide the extraordinary care for our children in all major clinical areas. Child Life is present in virtually everything we do from prepping for surgery to helping during long chemotherapy infusions. Your support helps to make this possible.

Thank you once again.

Sincerely,
